Experience

Web Designer at DeVine Consulting, Inc.

November, 2023 - Present

- Managed and updated web-based resources, including distance learning platforms and custom faculty directories, ensuring accuracy and functionality.
- Delivered comprehensive technical briefings on web initiatives, including actionable recommendations, prioritization of changes, and detailed implementation strategies.
- Developed and redesigned web pages, facilitating seamless client migration efforts and enhancing site functionality and aesthetics.
- Designed wireframes and web components for distance learning initiatives, employing research-driven design strategies to optimize effectiveness and user engagement.

Front-End Developer at SeeFood, Inc.

April, 2020 - November, 2023

- Implemented an efficient and optimized front-end architecture for a menu browsing platform using modern frameworks and libraries such as ReactJS, NextJS, and Bootstrap.
- Worked closely with back-end developers to integrate front-end components with server-side logic and database systems, facilitating seamless data flow and functionality.
- Utilized version control systems like Git to manage codebase, track changes, submit pull requests, and collaborate with team members effectively.
- Managed code reviews and provided constructive feedback to team members, ensuring adherence to coding standards, best practices, and code maintainability.

UX Design Intern at SlashM Studio

March, 2020 - June, 2020

- Assisted Senior UX Designer in conducting user research and usability testing sessions, collecting valuable insights and feedback to inform design decisions.
- Conducted competitive analysis and benchmarking studies to identify industry trends and best practices, providing valuable input for the design process.
- Collaborated with the development team to ensure the feasibility and implementation of UX designs, providing guidance and support during the development process.
- Directed heuristic evaluations and usability audits of existing digital products, identifying areas for improvement and suggesting UX enhancements.
